Becoming a Smoke-Free Family

Tobacco Abuse Can Harm Your Family

Children who breathe in cigarette smoke are more likely to suffer from

- ▲ Asthma
- ▲ Pneumonia
- ▲ Ear Infections
- ▲ Colds

Adults who breathe in smoke from cigarettes have a higher risk of

- ▲ Lung Cancer
- ▲ Heart Disease
- ▲ Asthma

Children Learn By Watching Adults

- ▲ Children of smokers are more likely to become smokers themselves.
- ▲ You are a role model for children in your life.
- ▲ Teach children to respect traditional tobacco use and avoid tobacco abuse.

Protect Your Family

*Create a smoke-free
home and car*

- ▲ Ask others not to smoke in your house or car. Tell them it is for your children's health.
- ▲ Get rid of ashtrays.
- ▲ Put up a sign to show that your home is smoke-free.
- ▲ If you smoke, smoke outside, away from your children.
- ▲ Ask your tribe to adopt a no-smoking resolution.
